OCHIENG CAESAR MAYIENGA

Telecom & Cloud Engineer | Data & AI | IEEE Member

Nairobi, Kenya | +254 702 847 176 | kaisermayienga@gmail.com | linkedin.com/in/caesarmayienga | github.com/KaiserMayienga

PROFILE

Telecommunications and Information Engineering student at JKUAT who builds and ships AI products. Hands-on with ML data pipelines at CloudFactory, full-stack AI apps (AutoFlow AI, CampusHive), RAG and agentic AI tooling, and cloud and network security, backed by AWS, Oracle, Cisco and EXPLIoT certifications. Self-taught in linear algebra, statistics and machine learning. Goal: apply AI to real African problems in education, infrastructure, commerce and agriculture, and help young Africans lead the continent's digital transformation.

EXPERIENCE

Data Annotator (Contract) Sep 2026 - Present
CloudFactory
- Annotate video data across multiple frames for machine learning training sets, with a focus on accuracy and consistency.
- Learned first-hand how production datasets are built, reviewed and quality-checked.

Sales Agent (Part-time) Oct 2026 - Present
Geminia Life Insurance
- Reached 100+ clients within the first weeks of the role.

Associate Jul 2026 - Sep 2026
Ministry of Information, Communications and the Digital Economy

Project Committee Secretary Mar 2025 - Nov 2025
JKUAT Society of Engineering Students
- Committee secretary for a student engineering community of about 1,000 members.

Onsite Sales Engineer (Intern) Jun 2025 - Aug 2025
Megawatt Ingenieria Ltd
- Supported sales of electrical engineering products for a firm serving the national market in solar products, panels and energy storage (50,000+ solar products sold).
- Gained hands-on training in fiber optics technology and splicing.

Customer Support (Contract) Jan 2023 - Dec 2025
ABL Limited
- Customer support covering the Nyanza region, a base of about 100,000 customers.

PROJECTS

AutoFlow AI - Workflow automation for automotive workshops 2026
autoflow-ai-kaiser.netlify.app | GitHub: KaiserMayienga/autoflow-ai
- Designed a 7-layer architecture (Next.js, FastAPI, LangGraph, Qdrant, Qwen via Ollama, PostgreSQL, observability) to automate customer service, triage, estimates, scheduling and status updates; safety-critical diagnosis stays with technicians.
- Shipped Phase 1 live on Netlify with Neon Postgres and auto-deploy from GitHub; agentic Phase 2 (LangGraph.js, Qdrant Cloud) planned next.

CampusHive - Campus hub for JKUAT (Millennium Fellowship project) 2026
campushive-jkuat.netlify.app
- Built a mobile and desktop platform with an events and concerts feed, past papers, marketplace, attachments board, and an anonymous peer-support space for student mental health.
- Stack: HTML/CSS, Supabase (Postgres, Google OAuth), Netlify, with M-Pesa Daraja ticket payments via edge functions; collected feedback from 30+ student peers.

Shamba Smart - UX Designer (Sharp Team)
Agronomic advisory platform for Kenyan smallholder farmers via app, SMS and USSD

Kaggle: Name That LLM Ends Jan 2027

Competing to attribute passages to 1 of 18 source LLMs (balanced accuracy metric)

EDUCATION

Telecommunications and Information Engineering (Electrical and Electronics Engineering) Sep 2023 - Present

Jomo Kenyatta University of Agriculture and Technology (JKUAT)

- Self-studied linear algebra, probability and statistics alongside campus mathematics; learned ML (linear and logistic regression, decision trees) independently.

CERTIFICATIONS

Cloud & AI	AWS Intro to Cloud Engineering (Oct 2026) | Oracle Agentic AI Foundations Associate (Aug 2026) | Oracle OCI 2025 Certified Developer Professional (Oct 2025) | Oracle AI Foundations Associate (Aug 2025)
Security & Networking	EXPLIoT Automotive IoT Security and OT Security (Jun 2025) | Cisco Ethical Hacker (Jun 2025) | Cisco Network Addressing and Basic Troubleshooting (Apr 2025) | Cisco Networking Basics (Mar 2025)
Data & Web	alx_africa Data Analytics (Jul 2026) and Professional Foundations (May 2026) | freeCodeCamp Responsive Web Design (Mar 2025)

SKILLS

AI & Data	RAG, agentic AI, LangChain, LangGraph, PyTorch, Qdrant, Ollama, data annotation and labeling, dataset quality, regression and decision trees
Software	Next.js, FastAPI, PostgreSQL, Supabase, Astro, HTML/CSS, Bootstrap, Git/GitHub, Netlify, Linux (CLI)
Cloud & Networks	AWS and Oracle OCI fundamentals, networking, ethical hacking basics, IoT and OT security
Telecom & Hardware	Fiber optics and splicing, electrical engineering product sales, solar and energy storage
Product & People	UX design, product scoping, customer support, sales, team coordination

LEADERSHIP, MEMBERSHIPS & LANGUAGES

IEEE Member | JKUAT Society of Engineering | AIESEC | Rotaract Junior Club | UNESCO JKUAT, active in the Planning and Development committee (community of about 500)

Languages: English (fluent) | Swahili (fluent) | Russian (elementary)
